

Farmers DO qualify for SBA Payment Protection Program loans.

- Work with a bank to apply.
- Loans are on a first-come, first-served basis until funds run out.
- USDA's Covid-19 page includes information on the Payment Protection Program that explicitly states that farmers qualify.
- Farmers may be able to get the loan if they pay self-employment tax, even if they do not have other employees.

Information on this issues and other tax related issues can be found at ruraltax.org/covid-19.
