## COURTHOUSE COVID-19 PROTOCOLS

The new procedures are as follows:

The administration building will be locked at all times, with the exception of the doors on the northeast end to provide access to the courts.

Those who need to conduct business in-person must call the office with which they have business in advance and schedule an appointment. Please let the employee know if you will need any accommodations or assistance to enter the building.

When you arrive for your scheduled appointment, call the office with which you have an appointment. The office numbers will be posted on the doors of the building.

The office will send an employee out to meet you. The employee will ask you a few quick COVID-19 screening questions, then help with your business if the screening is clear.

Once your business is concluded, immediately exit the building for your safety and the safety of county employees.

These procedures are being implemented to help the county comply with guidelines recommended by the president, the governor, and public health officials at the federal, state and local level.

Please do not make an appointment if you or someone in your house has symptoms of COVID-19, including a fever, dry cough and shortness of breath. Also, please do not send someone from your house to conduct your business for you if they have had close contact with you in the past 14 days and you have symptoms of COVID-19.

Access to the Manila Justice Court and 8th District Court is available through the doors on the northeast end of the Daggett County Administration Building and Courthouse. You will not have access to the rest of the county building through this entrance.

County employees remain available to assist citizens over the phone. Citizens can also make payments online at [www.daggettcountry.org/385/Online-Payments](http://www.daggettcountry.org/385/Online-Payments).

Many of the DMV's services, including renewing your vehicle registration, can be accessed on the division's website: <https://dmv.utah.gov/>.

THE PRICE OF ANYTHING IS THE AMOUNT  
OF LIFE YOU WILL EXCHANGE FOR IT.

## BASIC GARDENING FOR VEGES & SUCCESS

### It Starts With the Soil

When starting a vegetable garden, it's extremely important to purchase the right soil. You'll need the soil to be soft, loose, and come with a lot of organic matter – which attracts earth worms. The creepy crawlers are very good for a vegetable garden because they act as tiny plows, letting air and water get to the roots of plants. When planting the garden, your soil should remind you of digging into cake mix.

### Plan Before You Plant

It's important to place your vegetable plants where you want them be before digging and planting. This will help you plan and visualize the layout of your garden. Be sure to give yourself room to walk! This small and simple trick will save you a lot of time in the long run.

### Give Your Plants Room To Grow

Get to know what you're planting. Certain vegetables need more room than others, and some grow deep and wide. Of course, be sure to protect your plants from insects with a simple orchard spray.

### Ditch The Watering Can

It takes way too much time to individually water each plant. Get yourself a simple water hose, and spray your vegetables all at once. Tip: make sure not to add too much pressure; it should be reminiscent of a typical rainfall.
