Manila Municipal Election

Logic and Accuracy Test for 2025 Municipal Election Equipment

Daggett County is committed to ensuring the integrity and accuracy of its electoral process. In accordance with this commitment, a public Logic and Accuracy (L&A) Test will be performed on all Express Vote Machines and Tabulators that have been designated for use in the upcoming 2025 Municipal Election.

This essential pre-election procedure will allow election officials, and the public, to verify that all voting equipment is functioning correctly and accurately recording and counting ballots as intended. The L&A Test involves a series of meticulously planned steps designed to simulate the voting process, using a pre-determined set of test ballots. This rigorous testing ensures that:

- **Express Vote Machines** accurately display candidate names, allow voters to make selections, and print a verifiable paper ballot for review.
- **Tabulators** correctly read and count all valid votes cast on both paper ballots (generated by Express Vote machines or traditional hand-marked ballots) and accurately aggregate election results.

The public is cordially invited and encouraged to observe this vital process. Your presence helps foster transparency and public confidence in our elections.

Date: Monday, October 20, 2025

Time: 9:00 A.M.

Location: Daggett County Courthouse, 95 N 1st W, Manila, Utah

For further information regarding election procedures or the Logic and Accuracy Test, please contact the Daggett County Clerk's Office.
