

PUBLIC NOTICE

Aerial Mosquito Spraying is Scheduled for TUESDAY – WEDNESDAY JULY 12 & 13, 2016

The Daggett County Mosquito Abatement District announces plans to aerial spray for mosquitos **JULY 12 & 13, 2016 weather and winds permitting.** Sprayings are scheduled to take place from 6:00 am to 8:00 am and 7:00 pm until dark as wind and weather permit.

Although mosquito control pesticides pose low risks, some people may prefer to avoid or further minimize exposure. While not required, steps to help further reduce possible exposure to pesticides include:

- Remain indoors during applications in the immediate area.
- People who suffer from chemical sensitivities or feel spraying may aggravate a preexisting health condition, may consult their physician or local health department and take special measures to avoid exposure.
- Close windows and turn off window-unit air conditioners when spraying is taking place in the immediate area.
- If anyone feels they may be experiencing adverse reaction due to pesticide exposure, they should contact the **Utah Poison Control Center hotline at (800) 222-1222.**
